Strength. Reliability. Integrity.

[www.sequoiaetc.com](http://www.sequoiaetc.com)

Sequoia Etc provides award winning service and leads the industry in shaping the way PTC Solutions are utilized.

## Strength

Sequoia Etc's strength lies in our relationships. We are a Platinum Authorized Reseller of PTC products, one of only seven in North America, as well as a PTC Certified Training Partner for Dallas, Kansas City, St. Louis, and Denver. We have achieved this level of success and prestige as a direct result of our customer relationships and our commitment to customer service.

"(What) I appreciate the most from the Sequoia staff is the desire to get to know who we are and what we are trying to accomplish and not just coldly try to sell us something we don't need. I look forward to working with Sequoia for years to come."

Jeff Overlee  
Network Administrator  
Tek Packaging

## Reliability

Reliability is core to Sequoia Etc's success. Our customers rely on Sequoia Etc for the best in product recommendations, service, and training. We rely on our extremely talented and knowledgeable sales staff and Solution Architects to provide you, the customer, with the best experience possible.

"[The instructor] either knew the answer, or was able to find out answers to class questions. He described how techniques would be used in real world applications. If I am stuck on something, I will definitely give him a call."

Justin Paulsen  
Design Engineer  
Gates Company

## Integrity

At Sequoia Etc, we pride ourselves on and adhere to the highest level of integrity with our customers. We have differentiated ourselves from the competition with our customer service, which is the backbone of our organization. We make it standard practice to stay in constant contact pre and post sales and respond to all tech support needs. Beyond PTC products and our organization, it is our customers that ensure our success.

"Sequoia is, by far, the most attentive reseller I have ever worked with. Their team has gone to great lengths to ensure that we have the right tools for our design needs. No questions go unanswered. No problems go unsolved. Sequoia has been there."

Kyle E. Smith  
Engineering Designer  
Micrin Technologies Corp.

See how Sequoia's people and PTC's software can reduce cost, improve quality, and get your product to market faster. Give us a chance to earn your business today.
